ESTIMATE # 1165
DATE 04/08/2023
EXPIRATION DATE 05/08/2023

DATE	ACTIVITY	QTY	RATE	AMOUNT
	Stormwater Pond Survey and Diagnosis Based on our initial overview of the project site conditions, it would be prudent to perform exploratory excavation of the area that appears to be settling on the south slope of the pond. A representative from KPFF Consulting Engineers will be on-site during excavation to observe surficial conditions that may be contributing to subsidence. Once completed, KPFF will prepare a letter report and recommendations for corrective actions. For the above-described level of effort we anticipate 4 hours in the field and 2 hours for preparing the summary letter.	1	1,200.00	1,200.00T
	Excavator and Operator Hourly rate is billed in 15 minute increments. 2 hour minimum, portal to portal.	1	250.00	250.00T

 SUBTOTAL 1,450.00
 TAX 117.45
 TOTAL **\$1,567.45**
